Project Connect

HOW TO GET CONNECTED

First time use – Information on the label of box

1. Battery is already inserted into device. Please make sure you recharge the battery overnight.
2. Hold the Power key for 3 seconds until all LED indicators illuminate in blue.
3. Connect your Wi-Fi device to your Mobile Hotspot.
4. On your computer or other Wi-Fi enabled device, search for available Wi-Fi networks and select network name (SSID) "Coolpad Surf + the last 4 digits of IMEI".

From a Windows PC:

- Left-click Wireless Network Connection on the taskbar to view available networks.
- Choose the SSID from the list of available networks.

From a Mac computer:

- Select **System Preferences > Network > Airport.**
- Click **Advanced to choose SSID from the list of available networks.**
- Choose the SSID from the list of available networks.

From an iOS device:

- Go to **Settings > Wi-Fi.**
- Choose the SSID from the available networks.
- From an Android device:
- Go to **Settings > Wi-Fi settings.**
- Choose the SSID from the available networks.

5. Enter the Wi-Fi password, which is the last 8 digits of the device IMEI (which is located on the box), then click **OK.**

Power key: Hold the Power key for 3 seconds to power the device on/off. When the screen is off, press the Power key to turn the screen on.
WPS key: Hold the WPS key for 3 seconds to activate the WPS function. Once activated, the Wi-Fi™ LED indicator will flash every two seconds. If the network is not accessed within 2 minutes, the device will automatically exit WPS (Wi-Fi Protected Setup) mode.
LED indicators: Display network signal, Wi-Fi, SMS, battery charge and mobile data status.
